

Bibliography

Council Directive 98/24/EC of 7 April 1998 on the protection of the health and safety of workers from the risks related to chemical agents at work (fourteenth individual Directive within the meaning of Article 16(1) of Directive 89/391/EEC)

Commission Directive 2000/39/EC of 8 June 2000 establishing a first list of indicative occupational limit values in implementation of Council Directive 98/24/EC on the protection of the health and safety of workers from the risks related to chemical agents at work

Advisory committee on safety, Hygiene and health protection at work: Opinion on proposal 11280/3/02 establishing a 2nd list of IOELVs under directive 98/24/EC. Brussels (2002)

EN 481: Workplace atmospheres – Size fraction definitions for measurement of airborne particles

EN 482: Workplace atmospheres – General requirements for the performance of procedures for the measurement of chemical agents (September 1994)

prEN 482: Workplace atmospheres – General requirements for the performance of procedures for the measurement of chemical agents (February 2005)

EN 689: Workplace atmospheres – Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy

ENV 13005: 1999: Guide to the expression of uncertainty in measurement

EN 13890: Workplace atmospheres – Procedures for measuring metals and metalloids in airborne particles – Requirements and test methods

EN 14031: Workplace atmospheres – Determination of airborne endotoxins

ISO 3534-1: Statistics – Vocabulary and symbols – Part 1: Probability and general statistical terms

ISO 5725-1-6: Accuracy (trueness and precision) of measurement methods and results

ISO 6879: 1995: Air quality – Performance characteristics and related concepts for air quality measuring methods

ISO 15202 (all parts): Workplace air – Determination of metals and metalloids in airborne particulate matter by inductively coupled plasma atomic emission spectrometry

ISO 15767: Workplace atmospheres – Controlling and characterizing errors in weighing collected aerosols

ISO/TS 21748: Guidance for the use of repeatability, reproducibility and trueness estimates in measurement uncertainty estimation
